Portals Hardware

Summer 2023 Hardware Catalog

HIGH QUALITY AND INNOVATIVE DESIGN

Portals Hardware was founded on the belief that we can provide you better designed hardware that also complements the rest of the bathroom, from both a design and finish perspective. We joined the Bohle family of companies in 2018 with the objective of expanding Portals' scope to include other products, always striving to provide the highest quality with innovative design features. We add the greatest value by using our expertise to understand and expand the product marketplace available when working with glass as a design element.

Our Process: We are constantly looking at products in the glass/glazing market and evaluating where we can meet a need that is not currently served. We work with our own manufacturing resources and exclusive vendors to provide you with the highest quality product available.

We offer a wide array of stocked finishes to suit your design needs. Please note that not all items are available in all finishes. Please see Suites for available stocked finishes.
